Org Responsibilities to Users

Security Basics

- Require MFA
- Enforce encryption
- Regular security training
- Incident response plans

Privacy Practices

- Minimize data collection
- Transparent policies
- User privacy controls
- Secure data deletion

Ask yourself: Does your employer do these things? What about the websites you use?

De-Google Your Life

You don't have to quit Google cold turkey. Start by replacing one service at a time.

Replace Google Search:

- DuckDuckGo - No tracking
- Startpage - Google results, anonymized

Replace Chrome:

- Firefox - Customizable, private
- Brave - Built-in ad blocking

Replace Google Maps:

- Organic Maps - Offline, no tracking
- Magic Earth - Traffic + privacy
