

Our Setup

Circa June 2024

- ~~Almost no Macs were DEP/ADE~~ All new Macs are ADE (or Configurator for iPhone)
- ~~Prepared via MDS; AD-bound admin accounts~~ local standard accounts with Kerberos AD SSO Extension & Privileges
- ~~Small amount of MDM-Managed Macs~~ Nearly entire fleet enrolled in MDM
- ~~Data Transfers/Backup facilitated by IT at time of new device setup/re-image~~ OneDrive; end-user's discretion
- FileVault discouraged enabled during setup
- ~~Munki on Prem~~ Installomator & App Auto-Patch
- ~~Encouraging users to update at time of setup~~ OS Update Reminders via Nice-Updater
