macOS Software Updates Required

5 remaining deferrals

Software updates are available to be installed on this Mac which require a restart:

- macOS Ventura 13.2 Beta 2-22D5038i

Your administrator requires that these updates are installed as soon as possible.

Please save your work and press **Continue**. This will open the Software Update panel. From here, press **Install Now** to begin the installation.

Defer for 24 hours

Continue

Please Restart

In order to keep your system healthy and secure it needs to be restarted.
Please save your work and restart as soon as possible.

Deferrals remaining until required restart: 5

OK, Restart Now...

Not now, remind...

```
#!/bin/zsh
```

```
# Replace "WKU-GUEST" with the SSID you want to check for  
target_ssid="WKU-GUEST"
```

```
# Get the current SSID
```

```
