## macOS Software Updates Required

### 5 remaining deferrals

Software updates are available to be installed on this Mac which require a restart:

- macOS Ventura 13.2 Beta 2-22D5038i

Your administrator requires that these updates are installed as soon as possible.

Please save your work and press **Continue**. This will open the Software Update panel. From here, press **Install Now** to begin the installation.

Defer for 24 hours

Continue

## WKU-GUEST Connected

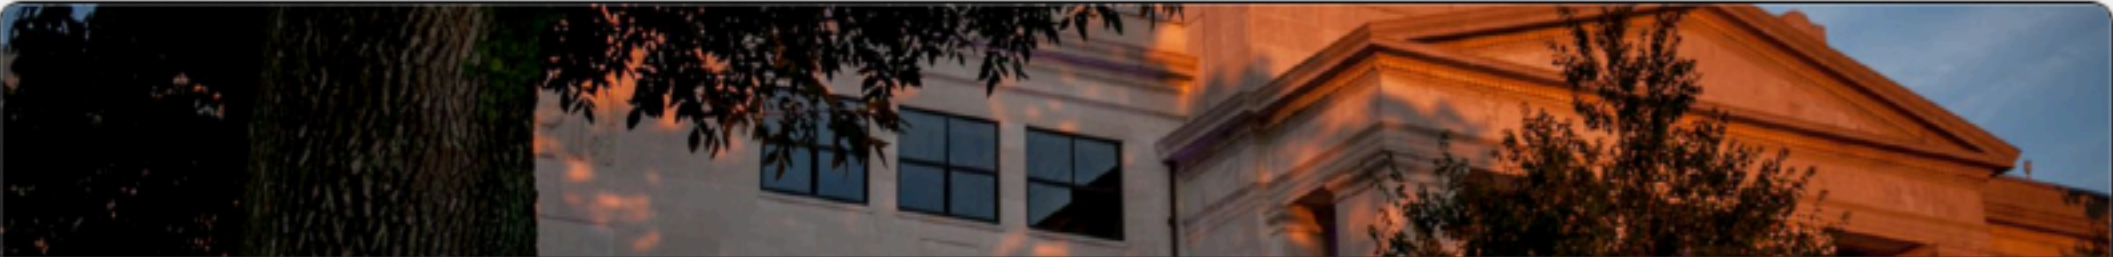

It looks like your Mac is connected to WKU-GUEST. You may encounter slow browsing speeds and some functions, such as Printing or accessing the Shared drive, may not work.

It is recommended that you connect to WKU-SECURE instead.

Would you like to change your Wi-Fi connection?

No

Yes

## Getting Started with Your Mac

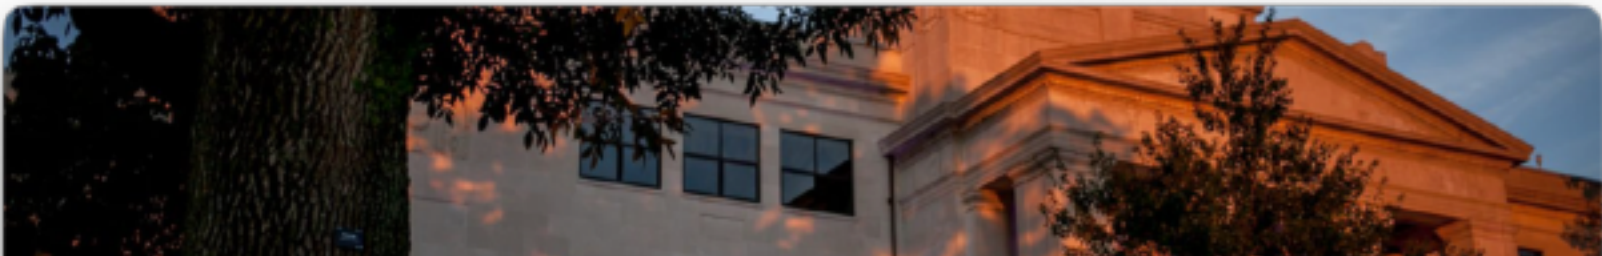

Your computer has been setup ahead of time, so you can get going quickly. This video covers the things left for you to customize.

If you need assistance during this process, please contact ITS at <https://www.wku.edu/its/contact> or at 270-745-7000.

If you prefer a text-based guide, click the button below.

## Please Restart

---

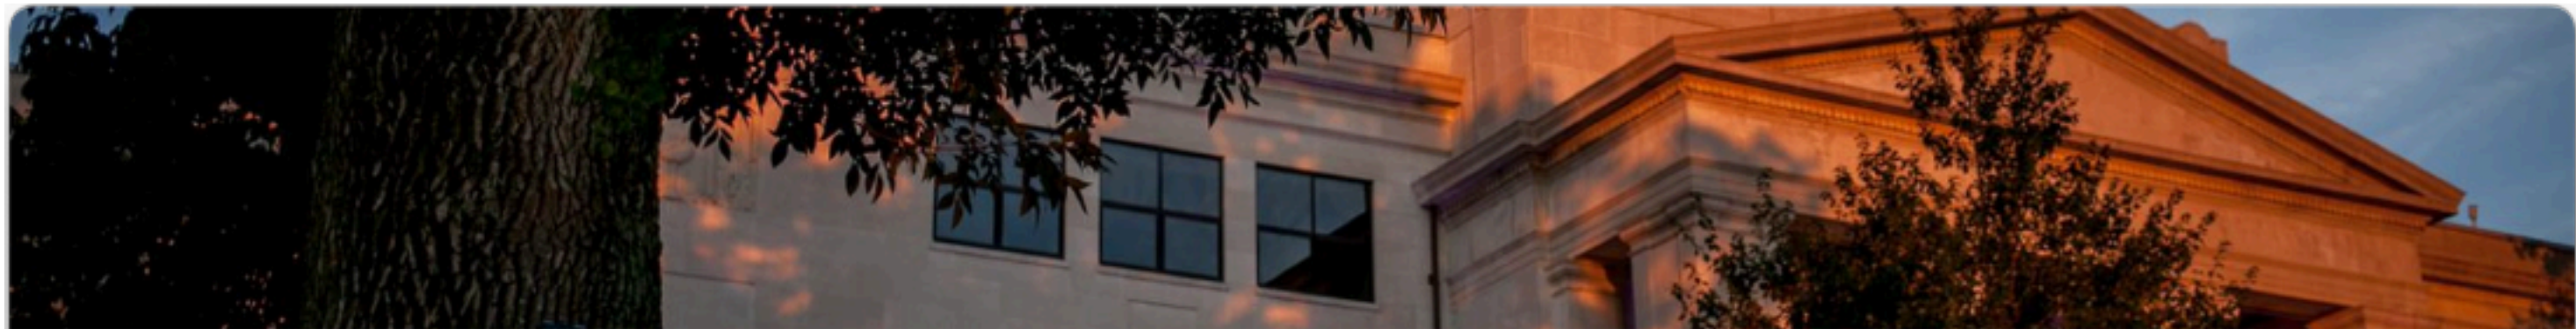

In order to keep your system healthy and secure it needs to be restarted.  
**Please save your work and restart as soon as possible.**

OK, Restart Now I am Ready

Not now, remind me later...

## AirDrop Enabled for Everyone

It looks like your Mac is allowing AirDrop connections from any device. This can be used for malicious purposes. It is recommended to restrict AirDrop to Contacts Only or to turn it off altogether if unneeded.

Would you like to open AirDrop settings to adjust them?
