

# Meta Privacy Problem

- Recent Violations:
    - **€200M fine (2025)**: Forcing users to pay or consent to tracking
    - **€405M fine (2022)**: Mishandling children's data, exposing contact info publicly
    - **200 French media outlets suing**: Collecting user data without consent
  - What They're Doing:
    - Training AI models on your posts and photos
    - Collecting data from websites you visit (off-platform tracking)
    - Sharing your info with marketing companies
    - Creating behavioral profiles for advertising
- ⚠️ You've already adjusted settings—but stay vigilant. Review permissions quarterly.

# Social Media Privacy

-  Limit who can see your posts and profile
-  Disable location tagging in photos
-  Remove metadata from photos before posting
-  Don't link accounts unnecessarily
-  Be cautious accepting friend requests from strangers
-  Search yourself regularly to see what's public
-  Review app permissions on social platforms
